Premio Terna 02 per l'Arte Contemporanea

the principal owner of the high voltage National Electricity Transmission Grid throughout the Italian territory -, supports the contemporary art and call the artists of all ages and nationalities, who work steadily in Italy and in New York City, to express their creativity on the theme: "Energy:Mankind = Future:Environment. The proportion for new aesthetics". A literal and metaphorical proportion, a new paradigm useful to read and interpret our contemporaneity. In Economics as well as in Aesthetics. In the management of both Energy and Art..
